Jefferson IRB Announcement - Amendments Changing PI

As a part of OHR's continuing efforts to streamline the submittal process for the research community, we will now use the OHR-12 for all changes of PIs. We will continue to use the OHR-12B to add all other personnel and the OHR-12C to remove all other personnel from studies. (For instances where change of PI necessitates addition or removal of personnel, this can be folded into the OHR-12.)

We continue to waive the requirement for OHR-12Bs & 12Cs to be uploaded to the Portal. They should be delivered in one paper copy to our office. OHR-12s require upload to the Portal and delivery of requisite copies to our office.
