**Jefferson IRB Announcement – Number of Full Review Packets Changed**

In our continuing mission to ease the administrative burden of IRB submissions, we are happy to announce that the required number of hard copies of each document submitted as part of a full review submission (new, amendment, continuing review) has been **decreased** from 6 copies to **3 copies**.

Please note: These changes may not be immediately apparent in instructions on OHR forms; this announcement is to be regarded as the official determination of the matter at this time.

Also note that all expedited transactions (new, amendment, continuing review, final report) and exempt submissions are now fully paperless.

If you have any questions about submissions, please contact our office.

Thank you,

Office of Human Research
