F&A Rates and Research Administration Fees Non-Federal Sponsors

The below F&A rates and research administration fees will be effective July 1, 2025.

The F&A rates are non-negotiable. However, some charitable or other non-profit, non-federal organizations may have a public policy requiring a lower rate. These rates will be honored on a case-by-case basis. F&A rates will be applied to all direct costs including, but not limited to, patient care costs, patient reimbursements/stipends, drug purchases, and other administrative fees. F&A rates will not be applied to administrative start-up fees, IRB review fees, and the research administrative services outlined below.

	F&A Rate
Non-Federal Clinical Research	35%
Federal Clinical Research	57%

Research Administration Fees for clinical research studies with non-federal sponsors, as applicable:
